

Searching Docker Images using Docker CLI

1 Search Docker image by name

```
$ docker search mysql
```

2 Search only for official Docker image

```
$ docker search --filter is-official=true mysql
```

3 Limit the Docker image search result

```
$ docker search --limit 7 mysql
```

4 Format the result using Go template

```
$ docker search --format "table  
{{.Name}}\t{{.Description}}\t{{.IsOfficial}}"  
--limit 10 --no-trunc mysql
```
