

# Cleaning up the Swarm Cluster

## 1 List out services

```
$ docker service ls
```

## 2 Remove a service

```
$ docker service rm redis-swarm
```

## 3 List out nodes

```
$ docker node ls
```

## 4 Remove a node

```
$ docker node rm manager
```

## 5 Remove the DOWN manager node

```
$ docker node rm <manager-node-ID>
```

## 6 List out nodes

```
$ docker node ls
```

## 7 Remove a node forcefully

```
$ docker node rm manager --force
```

## 8 Leave swarm gracefully

```
$ docker swarm leave
```

## 9 List out nodes

```
$ docker node ls
```
