Backup and Restore UCP

1 **Make a new directory to backup UCP files**

```
$ mkdir backup
```

2 **Provide R/W permission the backup directory**

```
$ sudo chmod 777 <path-to-backup-dir>
```

3 **Uninstall UCP from Swarm Cluster**

```
$ docker container run --rm -it \
  --name ucp \
  -v /var/run/docker.sock:/var/run/docker.sock \
  mirantis/ucp \
  uninstall-ucp --interactive
```

4 Go to backup directory and restore UCP

```
$ cd backup

$ docker container run --rm -it \
  -v /var/run/docker.sock:/var/run/docker.sock \
  mirantis/ucp restore < backup.rar
```
